Backend: Node.js, Express.js, PHP, REST APIs

Databases: MS SQL Server, PostgreSQL, MySQL

Cross-Platform: .NET MAUI, XAML, C#

Tools & Platforms: Git, GitHub, Vercel, Supabase, Figma, Canva, Visual Studio Code, Visual Studio, GoHighLevel (GHL)

WORK EXPERIENCE

Front-End Developer & UI/UX Designer Intern

December 2025 - May 2026

C8nnect IT Solutions | Bulakan, Bulacan

- Developed responsive web interfaces using HTML5, CSS3, JavaScript, and PHP within an agile team environment
- Designed user-friendly web and mobile application interfaces using Figma and Canva
- Created wireframes, mockups, and interactive prototypes for application development projects

Freelance Web Developer & UI/UX Designer

2023 - Present

Self-Employed

- Developed and delivered responsive web applications for multiple clients using HTML5, CSS3, JavaScript, and PHP
- Designed modern, user-friendly website interfaces using Figma and Canva based on client business requirements
- Built mobile-optimized layouts ensuring consistent cross-device performance

PROJECTS

Moodly – Mood Tracking Mobile App | .NET MAUI, C#

- Cross-platform mobile application for mood tracking featuring daily logging, trend visualization, and historical mood data review.

Online Sumbungan – Digital Community Reporting Platform | React, TypeScript, Node.js

- Full-stack web platform enabling residents to submit, track, and manage community concerns online.

Tasty Hub – Recipe Sharing Website | HTML, CSS, JavaScript, PHP

- Recipe discovery and sharing platform with browse, search, filtering, and user submission features.

Eco Flask – E-Commerce Landing Page | HTML, CSS, JavaScript, PHP

- Visually optimized landing page promoting eco-friendly reusable bottles, built with HTML, CSS, JavaScript, and PHP for mobile responsiveness and conversion.

MyLGU – Local Government Services Portal | HTML, CSS, JavaScript, PHP

- Community portal providing local government service information and resources for residents. Built with HTML, CSS, JavaScript, and PHP, focused on accessibility and mobile responsiveness.

EDUCATION
